

# PRODUCT SPECIFICATION

**Product:** CEDERROTH EYE WASH

**Reference code:** 7251A, 725200A

## 1. General description

A personal eyewash bottle containing sterile, buffered, saline eye wash solution.

The bottle is easily opened and ready to use by twisting off the dustcover. The integrated eye cup helps keeping the eye open during rinsing and ensures a generous flow without unnecessary waste

## 2. Intended use

The Cederroth Eye Wash is intended for washing away foreign particles and dangerous liquids, like alkali or acids, from an eye in an emergency first aid situation at work places. The Cederroth buffered Eye Wash also has a neutralising effect on splashes from alkalis and acids. The effect is in general stronger for alkalis than for acids.

The Cederroth Eye Wash is intended for the first acute phase at the very accident site before getting to a plumbed or self-contained eye wash equipment or seeking medical attention. The Cederroth Eye Wash can also be used during transport to medical care.

The durable consumer box contains 2 Cederroth Eye Wash bottles.

## 3. Technical description

### *Product dimensions :*

#### ***Bottle***

Diameter (cm): 6.6  
Height (cm) 23,5  
Fill volume (ml): 500

#### ***Box (2 bottles)***

l x w x h (cm): 7 x 14,5 x 24,5

#### ***Material***

Liquid Sterile, isotonic Sodium Chloride 0.9%,  
Buffered with Sodium Borate to neutral PH.  
Preservative free.

Bottle Leak proof polypropylene bottle produced with Blow-Fill-Seal technique.  
Eye cup in transparent polypropylene  
Dust cover in green hard plastics (ABS)

## 4. Sterilization

Sterilization method: Aseptic filling
