SAFETY DATA SHEET (SDS)

	Section 1. Identification	Section 1. Identification			
Product identifie					
	Other means of identification Lernapharm family of products 119-xx, 109-xx				
	se and restrictions on use Antiseptic (containing 87-93 % of water)				
Initial supplier i	Initial supplier identifierLernapharm (Loris) Inc., 2323 Halpern, St-Laurent (Montreal) Québec, Canada H4S 1S3Telephone: 514-331-4634				
Emergency telep	hone number/restriction on use Canada – CANUTEC 24 hour number 613-996-6666				
Section 2. Hazard identification					
Classification of	hazardous product (name of the category or subcategory of the hazard class)				
Skin irritation (Ca					
Information eler	nents (symbols, signal words, hazard statements and precautionary statements of the cate	gory/subcategory)			
Warning					
H316 Causes mile					
	in irritation occurs: Get medical attention.				
Other hazards k					
	Section 3. Composition/information on ingredients				
Chemical name	(common name/synonyms) CAS number or other	Concentration (%)			
Poly(vinylpyrroli	done)-Iodine complex 25655-41-8	7-13 %			
	Section 4. First-aid measures				
Inhalation	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor				
Ingestion	IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER g				
	rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly w				
	glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspi	ation.			
Skin contact	If skin irritation occurs: Get medical attention. Rinse skin with water (5-10 minutes).				
Eye contact	IF IN EYES, Rinse eyes with water (5-10 minutes).				
	symptoms and effects (acute or delayed) May be harmful if swallowed and enters airw				
Indication of im	mediate medical attention/special treatment In all cases, call a doctor. Do not forget this d	ocument.			
	Section 5. Fire-fighting measures				
Specific hazards of the hazardous product (hazardous combustion products)					
	d other irritant/toxic gases and fumes.				
	uitable extinguishing media				
	e carbon dioxide, chemical powder agent and appropriate foam to extinguish.				
	e equipment and precautions for fire-fighters				
	ating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection				
	ent and self-contained breathing apparatus with full facepiece. Shield personnel to protect from v				
Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.					
Section 6. Accidental release measures					
Personal precautions, protective equipment and emergency procedures					
Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up					
should wear the appropriate protective equipment (See Section 8). Methods and materials for containment and cleaning up					
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then					
place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product.					
-		the nazarus as the spinet product.			
Notify the appropriate authorities as required. Section 7. Handling and storage					
Precautions for safe handling					
Wear gloves/protective clothing/eye protection/face protection.					
Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene					
measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect					
containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing					
dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high					
	dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep contained				
	vays dangerous. Refer also to Section 8.	1.2			
Conditions for safe storage, including any incompatibilities					
	ntilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from in	compatible materials (Section 10).			
	ing containers to make sure they are properly labelled and not damaged. Storage area sho				
obstruction and a	ccessible only to trained personnel. Inspect periodically for damage or leaks.				

	1./D				
Section 8. Exposure controls/Personal protection					
Control parameters (biological limit values or exposure limit values and	source of those values)				
Exposure limits: ACGIH – TLV-TWA & PEL-TWA none.					
Appropriate engineering controls					
Use under well-ventilated conditions. Local exhaust ventilation system i					
exposure limits. Make emergency eyewash stations, safety/quick-drench sho	wers, and washing facilities available in work area.				
Individual protection measures/personal protective equipment					
Respiratory protection is required if the concentrations are higher than the					
limits are unknown. Chemically protective gloves (impervious), and other p					
be worn during all handling operations. Wear protective chemical splash ge					
thoroughly after handling. Do not eat, drink or smoke when using this prod	uct. Practice good personal hygiene after using this material. Remove				
and wash contaminated work clothing before re-use.					
Section 9. Physical and o					
Appearance, physical state/colour Yellow red brown liquid	Vapour pressure Not available				
Odour Characteristic	Vapour density Heavier than air				
Odour threshold Not available	Relative density 1.03				
pH Not available	Solubility Soluble				
Melting/freezing point Not available	Partition coefficient - n-octanol/water Not available				
Initial boiling point/range Not available	Auto-ignition temperature Not available				
Flash point Not available	Decomposition temperature Not available				
Evaporation rate Not available	Viscosity Not available				
Flammability (solids and gases) Not available	VOC Not available				
Upper and lower flammability/explosive limits Not available	Other None known				
Section 10. Stability	and reactivity				
Reactivity					
Does not react under the recommended storage and handling conditions prescr	ibed.				
Chemical stability					
Stable under the recommended storage and handling conditions prescribed.					
Possibility of hazardous reactions					
None					
Conditions to avoid (static discharge, shock or vibration)					
None					
Incompatible materials					
Oxidizing materials; etc.					
Hazardous decomposition products					
None known					
Section 11. Toxicological information					
Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)					
Causes mild skin irritation. Causes very mild eye irritation.					
Symptoms related to the physical, chemical and toxicological characteristics					
Skin irritation, redness, stinging, pain.					
Delayed and immediate effects (chronic effects from short-term and long-term exposure)					
Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available;					
Carcinogenicity - No ingredient listed by IARC, ACGIH, NTP or OSHA Reproductive Toxicity - No data available; Specific Target Organ					
Toxicity — Single Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – No data available; Aspiration Hazard –					
No data available; Health Hazards Not Otherwise Classified – No data available.					
Numerical measures of toxicity (ATE; LD ₅₀ & LC ₅₀)					
CAS 25655-41-8 LD ₅₀ Oral - Rat - > 8000 mg/kg					
ATE not available in this document.					
Section 12. Ecological information					
Ecotoxicity (aquatic and terrestrial information)					
CAS 25655-41-8 Toxicity to fish LC ₅₀ – Oncorhynchus mykiss (rainbow tro	ut) 1050 mg/l - 1 h;				
Persistence and degradability No data available					
Bioaccumulative potential No bioaccumulation is to be expected.					
Mobility in soil No data available					
Other adverse effects No data available					
Section 13. Disposal					
Information on safe handling for disposal/methods of disposal/contamin					
Dispose of contents/container into safe container in accordance with local, re-	Dispose of contents/container into safe container in accordance with local, regional or national regulations.
